PROFILE

Junior Full Stack Developer with a Computer Science degree from Ain Shams University and hands on experience in C#, ASP.NET MVC Core, SQL Server, and Angular, with a strong focus on building scalable, high-performance web applications, applying best coding practices, design patterns, and modern development methodologies to deliver robust and maintainable solutions, currently training in backend development at Route Academy, eager to contribute to scalable, real-world software projects.

EDUCATION

Bachelor's degree in Computer & Information Sciences 2023

Ain Shams University

- **CGPA: 3.10**
- **Graduation Project: Governmental Service Quality Assurance System**
 - **Grade: A+**
 - **Designed and developed an AI-based Governmental Service Quality Assurance** system focused on **Arabic-language Citizens reviews**, leveraging advanced **NLP** techniques for efficient **topic classification** with **F1 score of 95.8%**, **sentiment analysis with F1 score 96%** and **solution generation**.

EXPERIENCE

Back-end .NET Intern April 2025 – Present, On Site

Route Academy

- Currently undergoing hands-on training in .NET backend development with a focus on building scalable systems.
- Developing a full backend for an e-commerce application and others using C#, ASP.NET MVC, SQL Server, and Entity Framework.

Machine Learning Intern October 2023 – November 2023, Remote

Grow Intern

- Developed classification and regression models using scikit-learn and pandas.
- Applied data preprocessing techniques including feature scaling, encoding, and normalization

Data Science & Business Analytics Intern September 2023 – October 2023, Remote

The Sparks Foundation

- Performed exploratory data analysis (EDA) and built regression models to support business insights.
- Visualized trends using matplotlib and seaborn for actionable reporting.

SKILLS

- **Programming Languages:** C# , C++ , Python , TypeScript , JavaScript.
- **Software Development:** Object-Oriented Programming (OOP), Data Structures, Algorithm analysis & Design, Design Patterns, Solid Principles, Unit Testing, Git & GitHub.
- **Backend Technologies:** .NET, ASP.NET Core MVC, ASP.NET Core Web API , LINQ, SignalR.
- **Frontend Technologies:** HTML5, CSS3, Angular, Blazor, WindowsForms.
- **Tools:** Visual Studio, Visual Studio Code, SQL Server Management Studio (SSMS).
- **Database & ORM:** SQL Server, Entity Framework.
- **Machine Learning & AI:** NumPy, Pandas, Sci-kit Learn, Seaborn, Selenium.

PROJECTS

Booky Store (Online Bookstore Ecommerce App)

- Developed a feature-rich **ASP.NET Core MVC** bookstore platform with **user authentication** (including **Facebook OAuth**), **customer checkout via Stripe**, and **full order management**.
- Built a robust **admin dashboard** enabling management of **products, companies, categories, and registered users** with **role-based access control**.
- Implemented user-friendly **order workflows** for customers to **view, manage, and complete purchases**, **integrating Entity Framework Core and Razor Pages**.
- Technologies: **.NET , ASP.NET MVC, C# , Entity Framework Core, ASP.Net Identity, Stripe API , Facebook API**.

Market Place Simulation System

- Developed a simulation of an **online marketplace** integrating a **Windows Forms application** using **.NET** with **Oracle Database** to streamline user and product management functionalities.
- **Implemented CRUD operations and reporting tools** using **Entity Framework** and **Oracle technologies** to ensure efficient data handling and report generation.

Tiny Language Compiler

- Developed a **Windows Forms** based compiler for a custom **“Tiny” programming language using C#**.
- Used **finite automata and recursive descent parsing** to build the compiler engine.
- Designed **symbol tables and intermediate code representation for execution planning**.

Face Mask Detector

- **Developed a real-time face mask detection system using YOLOv5**, achieving **95% accuracy** in identifying individuals with mask, Wearing mask incorrectly and without masks.
- **Implemented User Interaction interface using Google Colab** to access webcam on user devices.

CERTIFICATIONS & COURSES

- | | |
|---|---|
| • .NET Core MVC - The Complete Guide 2025 Udemy 2025 |  |
| • Problem Solving Basic Certificate Hacker Rank 2025 |  |
| • Foundational C# with Microsoft Microsoft 2025 |  |
| • Microsoft SQL Server Developer Mahara Tech 2025 |  |
| • SQL Advanced Hacker Rank 2025 |  |
| • Introduction to Back-End Development Meta, Coursera 2023 |  |
| • Version Control Meta, Coursera 2023 |  |
| • Machine Learning and AI Diploma Amit Learning 2023 |  |

ACHIEVEMENTS

- | | |
|--|---|
| • Secured Place in the Finals of top 12 teams Dell’s AI Empower Egypt Hackathon 2023. |  |
| • Secured the 1st Place in Machine Learning competition by Ain Shams University 2023. |  |

SOFT SKILLS

- | | |
|------------------------------|----------------------------------|
| • Problem Solving | • Effective Communication |
| • Time Management | • Continuous Learning |
| • Team Collaboration | |
| • Analytical Thinking | |
